M&K foam

Every story has its beginning. For us, it all started three decades ago, in 1992 to be precise. It was then that a small factory located in the centre of Poland, the first mattress produced by M&K Foam Koło was created. At first, our products were sold exclusively on the domestic market, but over time, Koło mattresses began to appear in foreign shops in various parts of Europe.

All our products are manufactured in the UK, which guarantees high quality workmanship, good materials and attention to the smallest details. Despite our many years of experience and extensive knowledge, we are still growing as a company and constantly striving to improve the quality of our products. For years, we have been successfully introducing modern solutions to the market that allow everyone to enjoy healthy and comfortable sleep. We stand out thanks to our branded products available at attractive prices and fast order fulfilment.

Our team consists of the best specialists with many years of experience in the industry. We employ people with a variety of skills, which allows us to look at each problem individually. We take the same approach in our relationships with our customers. We believe that good, healthy sleep is the foundation of a successful life, which is why we offer only reliable and proven solutions. We do all this with your health in mind, for a good night's sleep and an even better day!

We have prepared an attractive range of modern and functional mattresses and other bedroom products especially for you, which will help ensure a good and restorative night's sleep. Our products can be found exclusively in the best bedroom showrooms throughout the country. Trained experts and salespeople are waiting to help you find the perfect mattress. Welcome to the well-rested club. M&K foam mattresses — let us take care of your sleep.

A woman with blonde hair, wearing a white short-sleeved dress, is captured in a joyful moment as she jumps on a bed. She is holding a large, white, ribbed pillow against her chest. The room is bright and minimalist, with white walls and a white bedspread. The overall mood is one of comfort and happiness.

Join
the
club of
well-rested
people

Did you know that the average person spends about 1/3 of their life in bed? For sleepyheads, it's probably even more. How important is choosing the right mattress in all this? After all, it is the mattress that determines whether your sleep will be healthy and restorative, and whether we wake up in the morning well-rested and full of energy.

People can be surprising. We spend a lot of time buying a car, choosing the make, model and often even our favourite colour. We wonder whether to go for a version with better equipment to make our daily commute more comfortable and our holidays more enjoyable. We spend much less time in our cars every day than in our own beds, and yet we often take the choice of a mattress lightly.

For over 30 years, we have been successfully making all our customers aware that a mattress is not just a place to sleep. The bedroom is primarily a place of regeneration and rest. A place where, after a long day and conversations with others, each of us tries to gather our thoughts and calm down. The bedroom is a space where you can finally be yourself.

We want to help create a friendly space for sleep and rest. We offer a wide selection of modern mattresses, where everyone can find something for themselves. We offer pocket spring, foam and latex mattresses. Our range also includes beds, pillows and furniture for modern bedrooms.

For years, our philosophy has been to help others. We make our customers aware that today, here and now, they can make their lives better, healthier and more enjoyable. Take care of healthy sleep for yourself and your loved ones.

UPHOLSTERED BED

81218

A modern, upholstered bed with a delicately rounded frame and a distinctive, stitched headboard create an original composition. It looks best in a spacious interior. The bed is available with a headboard featuring Swarovski™ crystals. The structure is made of board covered with furniture fabric, available in a wide range of colours. The upholstered headboard, also at the back, adds elegance and creates more arrangement possibilities. A bedding container with a wooden or metal frame can be used. In addition to standard dimensions, the bed is also available in non-standard lengths and widths. For complete customer satisfaction, we recommend a suitable frame and mattress from our range.

Material in the photo: 30539

UPHOLSTERED BED

81275

+CABINET

A modern, functional upholstered bed with a classic design, featuring a simple frame and an impressive headboard decorated with vertical stitching. The advantage of this model is its practical headboard with a shelf, which is illuminated. The bed is perfect for any type of bedroom, enriching it with the beauty of simple lines and atmospheric lighting. The structure is made of board upholstered with furniture fabric, available in a wide range of colours. It stands stably on silver plastic legs, which can be replaced with black or brown wooden legs at an additional cost. A bedding storage container with a wooden or metal frame can be added. In addition to the standard dimensions, the bed is also available in non-standard lengths and widths. The back of the headboard can be upholstered at an additional cost, after consultation with specialists in furniture stores. For complete customer satisfaction, we recommend a suitable frame and mattress from our range.

Fabric in the photo: 10334

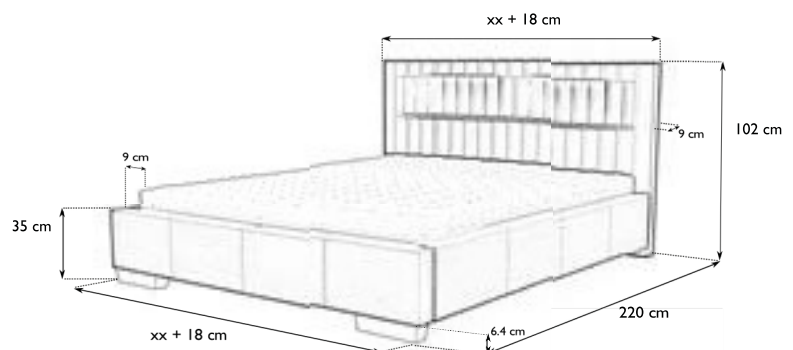

Can be configured with wooden legs at an additional cost.

UPHOLSTERED BED

81248

+ ROUND PUFF 81711

A modern, upholstered bed with a simple frame topped with a minimalist headboard made of two square panels, creating a composition that is ideal for stylish, modern interiors. The headboard is attached to the bed frame and does not touch the floor. The exterior of the board construction is upholstered with furniture fabric in a wide range of colours. The furniture stands stably on subtle, slender legs, which give the impression of delicacy and lightness to the entire structure. The leg design can be selected. In addition to standard sizes, the bed is also available in non-standard lengths and widths. For an additional fee, the headboard can be upholstered at the back. For complete customer satisfaction, we recommend a suitable bed base and mattress from our range.

UPHOLSTERED BED

81250

Pouf

An upholstered bed with a simple, classic design, whose headboard and frame have been embellished with striking ruffles, creating an interesting composition. It is perfect for large, spacious bedrooms, enhancing them with the beauty of simple lines. The structure is made of board covered with furniture fabric, available in a wide range of colours. The solid bed frame stands on glides that allow the furniture to be moved. It is possible to use a bedding container with a metal frame. For an additional fee, the headboard can be upholstered at the back. In addition to the standard dimensions, the bed is also available in non-standard lengths and widths. For complete customer satisfaction, we recommend a suitable frame and mattress from our range. The bed frame and cover are for self-assembly. Velcro fasteners allow the upholstery fabric to be attached to the frame.

BED

multi system

The Multisystem bed is our original solution that allows everyone to feel like a designer or interior decorator for a moment. What exactly does it involve?

- We provide you with ready-made bed components, and you can assemble them however you like. You can choose the frame, headboard, legs and fabric colour yourself.
- Over 2,000 combinations to choose from, not including unusual variants.
- For some headboards, you can even choose luxurious accessories such as Swarovski crystals or elegant and original buttons.
- Nothing is impossible for us. We are masters of bed and mattress customisation, and unusual orders have been our speciality for many years.
- If you wish, you can purchase upholstered furniture to match your bed: cabinets, seats, pouffes and benches.

With us, you can quickly and easily create a beautiful and absolutely unique bedroom. The process of selecting Multisystem elements is very simple and anyone can do it, no prior knowledge is required! Discover your creative side and choose individual bed components from the catalogue. Then simply combine them according to your taste. We will endeavour to deliver them as quickly as possible. Usually, the delivery time for custom and standard orders is only 2-3 weeks! Don't wait, join the well-rested club!
